Our New Office in Panama

New York, N.Y. (November 6, 2007) – International Project Development Group, LLC is pleased to announce the opening of its subsidiary - **PanaManagement™ Corporation**, a legal and financial consulting company for US and foreign business clients in Panama City.

Divided into two fully integrated departments, the Strategic Business Consulting Division and Legal Division, **PanaManagement** offers legal services, business consulting, marketing and management consulting. With locations in both Panama City and New York, PanaManagement offers its services to a variety of clients, from major firms to individual investors, in a wide range of corporate and personal projects, including real estate transactions, international trade, equipment leasing, international licensing, sales and purchases of businesses located in Panama, asset protection through personal holding companies and family foundations as well as choices of passive investment vehicles.

“We’ve established ourselves as a full-service consulting company, which allows us to handle our clients’ projects from inception to completion,” said Juliette Passer, President and General Counsel of **PanaManagement** and a US attorney with over 17 years of broad international transactional experience. “The purpose of establishing an office in Panama is two-fold: first, to facilitate and safeguard the investments by US companies and individual investors in a deceptively familiar legal environment of Panama, which is based on the Delaware Corporations Law and similar to the Wyoming Limited Liability Company Law, but allows bearer shares and untitled real estate sales; and secondly, to bring legitimacy to wealth preservation services, based on Panama family foundations, which does not involve any US tax evasion or creditor fraud. “

The dual offices and international experienced staff allow **PanaManagement** to work closely with its diverse clientele and provide quick, quality solutions.
